

## Lady Madini

Ghostemane

Ed Kelly is that you speaking?  
Tell Madini that I miss her face  
Get back to scrying in the dark  
Humans never ever get shit right  
Alchemy is dead and so am I  
Unless you make The Philosophers Stone  
I'm sick of trudging thru the mud  
Can someone up there just give me light

We're all just trudging in the mud  
We're all just trudging in the mud  
We're all just trudging in the mud  
We're all just trudging in the mud
