

Never thought I'd end up with my life like this  
Hating everything and I don't wanna live  
All I do is sit and smoke and drink at the crib  
Mind fucked up so I can't even trip  
[?] my life now I can't pay the bills

Rope around my neck  
Everything stay still  
Gotta get my shit together  
Gotta keep it real  
Evil taking over make me wanna kill myself

Beauty is the end, Stevo  
The end

Never thought I'd end up with my life like this  
Slaving every day just to keep my pockets filled  
People think that I am getting everything I wish  
Some times I just wish that I grew up a rich kid  
Then I'll get my mamma come and bail me out of jail  
No matter what I do  
That money never fails  
[?] my daddy in the ground  
Mamma loves her son but she's gone year-round  
All I go is rapping  
Keep my feet up off the ground  
Need some inspiration just to turn my life around  
Take a few caps that I picked up off the ground  
Fold 'em in a slice of pizza  
Chow fucking down  
Now I'm hearing colors and I'm seeing all the sounds  
Jump into a rabbit hole  
Take me all the way down  
Take me all the way down
