

# My Heart Of Glass

Ghostemane

I said goodbye to you today  
Then had a cigarette  
Sat and saw your plane make a circle round my  
Head  
I watched reality  
Dance above the cherry  
Of the Parliament I said that I would quit but I can't  
When you're gone I can't depend on anyone else  
I tried not to be afraid  
You said it's bad for my health  
It's bad for my health

We're all waiting to die  
And I'm just dying to wait  
For you to fly back  
I left my heart at the gate  
We're all waiting to die  
I hope it's not too late  
If you don't ever come back  
I've got a rope just in case
