

Psilocybe

Ghostemane

Chilling on a rooftop friday night
Wonder if it'd hurt if I jumped and died
All this shit been building up on top of me
Thinking bout the way that my Daddy died
I don't got no way to really clear my mind
I don't do no drugs that make me numb inside
Take a little trip off Psilocybe
Never wanna come back lemme fly

She choking
I'm smoking
Ignore paranoia
Annoying me into my Agoraphobia
Drink til I'm over ya
Only sip Cognac
Wrote in my Zodiac
I am the goat
Look in my Iris they black as Osiris
A look in my soul take a note on Papyrus
Depression a virus it taking a hold on me
Letting me go only once in a while
When you smile

Chilling on a rooftop friday night
Wonder if it'd hurt if I jumped and died
All this shit been building up on top of me
Thinking bout the way that my Daddy died
I don't got no way to really clear my mind
I don't do no drugs that make me numb inside
Take a little trip off Psilocybe
Never wanna come back lemme fly
