

# TABOO

**Ghostemane**

"These men come down here from New York and from Florida to find out my reasons on rock and roll music and why I preach against it, and I believe with all of my heart that it is a contributing factor to our juvenile delinquency of today. I a hundred percent believe. Why I believe that is because I know how it feels when you sing it. I know what it does to you. And I know of the evil feeling that you feel when you sing it. I know the lost position that you get into and the beat. Well, if you talk to the average teenager of today and you ask them what it is about rock and roll music that they like, the first thing they'll say is the beat. The beat, the beat."
