

Theta Wave

Ghostemane

I go to sleep and pray to God that I don't wake
But he don't listen now I live to see another day
I'm hazy now I think I wouldn't have it any other way
I get to hypnotize yo brain like a theta wave
Make my way into your cerebellum with some ill real
Control yo mind make yo heart explode like Kill Bill
Bitch I'm not a busta but you bet I bust your mandible
Keep that 9 inside [?]
Now my 22 I got that for my posse in the ground
Then somebody gone now his flesh is no where to be found
Bitch I got a suicidal itch
Pen to paper make sure I don't see inside of insane asylums tha
t coincide with hate
Now don't trust a motherfucker with no ends hoe
Then play yo friend like Johnny Depp take on a lead role
Trying to get yo cash like a succubus I used to know
Bitches it's K R Double E P I'm creeping through the plains sol
