

## Watch 'Em Holla

Ghostface Killah

"I've been a lot of places  
The very best of everything"  
Ayo, let these niggas know how I pop off, B  
"I've been a lot of places"  
Word up, man  
Then take my card, my nigga (yeah)  
"The very best of everything"  
Say yo

He was a serpent, too many foul moves was made  
No love amongst the wicked, gotta get his head severed  
I caught him in Miami, I was heavily armed  
Blew a OZ of that blue dream, I'm ready and calm  
Fiendin' just to do him dirty, already got the plan mapped out  
Snatched him up and headed back to the hideout  
Welcome, here's some exercise torture  
This is everyday work, ice gold grillz with no smirks  
Seen him frontin' with some skeezers  
Actin' like he's a boss with no rank, pussy posin' as a leader  
Had a bitch with me from the Island  
A true man-eater slash diva, dark skinned Geneva  
I sent her over, told her 'persuade 'em, walked him outside  
Tossed him in the truck and then we slide  
Got to the house, tied him up, plastic on the carpet  
Tub full of piranhas, I threw him in and watched him holla

Never the same (Your hood, the Gods bail)  
Never the same (Your hood, the Gods bail)  
Never the same (Your hood, the Gods bail) (yeah)  
Never the same (Your hood, the Gods spit the real) (yo)

Court fell on your receptionist, foreigner's pharmacist  
You're all in my face, who wanna put a scar in it  
Scarface, big tour bus with the bar in it  
Jets with the escalator, steps with your moms in it  
Electric stove, she holdin' my gold medal  
Cherry chest, don't mistake me for Burt Reynolds  
This is baller alert, confetti fallin'  
I look taller with works, spit bars that stayed lodged in the earth  
Keep my gun cryin', I don't mean clocks  
When I say, yo, there's so many dyin'  
Starks, second to last nigga on "Triumph"  
Rob me, I'm comin' with bands, no lyin'  
Step outside with that Michael aura  
Me and my team jumpin' off yachts in Bora Bora  
Hennessey Privilège, Tito's, goose water  
Motion picture, screens crack when they record us

It's the same old bullshit, y'all respect ignorance  
Niggas, I'll split ya fucking head with the quickness  
Show and prove intelligence, back about my business  
As far back as I can remember, it's been gangsta  
Old Earth had to hustle hard to make it better  
Kept a nickel plated .32 behind the dresser  
Showed me where she kept it in case of any pressure  
Friends all fresher, tired of havin' lesser  
Workin' wasn't working, forty hours overtime, pockets still hurtin'

Big decision makin', knew a few Jamaicans  
Brung me in, showed me how to win  
Camouflage blend, watch for the shark fin  
[?] cypher circlin' the serpent  
10% sellin' you a dream, fiends coming to cop  
I won't stop 'til it's got, getting there  
I won't stop 'til this cop getting it

Never the same (Your hood, the Gods bail)  
Never the same (Your hood, the Gods bail)  
Never the same (Your hood, the Gods bail)  
Never the same (Your hood, the Gods spit the real)

When I see that guppy, I'ma give him the business  
We all know he be talking to the witness  
Smell the foulness, he a traitor and all that  
He all out of a space, put him in his place  
I can't give him the raise, I can see the Devil in his face  
I'm in the hood comin' down the fire escape  
A lot of cats can't see me, I'm the great ape  
Machine gun in my hand, headed down the fire escape  
Yo, Rae, if they dilate give, 'em a seda-date  
'Cause tomorrow, I'ma be movin' to Cali  
Gold teeth nigga, bring back Ballys  
I'm out here pumpin' these motherfuckin' raps  
Yo, Eighty, show these niggas what we do to the wax  
Hip-hop, nigga, don't make me come out of my Starter hat  
Blow all these fake niggas off the face of the map  
And then I'ma hit [?] call it the cartel  
Doing hot shit, goin' through hell  
Police popped my homie, now it's time to rebel  
Real niggas, no matter what, don't tell

Never the same (Your hood, the Gods bail)  
Never the same (Your hood, the Gods bail)  
Never the same (Your hood, the Gods bail)  
Never the same (Your hood, the Gods spit the real)  
Never the same (Your hood, the Gods bail)  
Never the same (Your hood, the Gods bail)  
Never the same (Your hood, the Gods bail)  
Never the same (Your hood, the Gods spit the real)
