

Keep It Real

Ghostly Kisses

Will you shut it, I won't now
I mean it
Will you shut it, I won't now
I mean it
Will you shut it, I won't now
I mean it
Will you shut it, I won't now
I mean it

Will you shut it?

Cause I don't know how you feel
You pull your strings out around my heart ensnared
While yours is made of steel
Let me tell you I'll never see you again

Cause I don't know how you feel
Everybody knows it
Cause you just pretend it
Sometimes
You would only keep it real
When no one else's watching
Entitled and childish

Keep it real
You love then you don't
Don't call me, please
Let's not do it again
Keep it real
You love then you're gone
Don't call me, please
Let's not do it again

I mean it
Will you shut it, I won't now
I mean it
(Let's not do it again)
Will you shut it
I mean it
Will you shut it, I won't now
I mean it
Will you shut it?
(Let's not do it again)

Your words like honey dreams

Your twisted promises with empty hands
How was I so naive?
Let me tell you, let's not do it again

Cause I don't know how you feel
Everybody knows it
Cause you just pretend it
Sometimes
You would only keep it real
When no one else's watching
Entitled and childish

Keep it real
You love then you don't
Don't call me, please
Let's not do it again
Keep it real
You love then you're gone
Don't call me, please
Let's not do it again

Keep it real (you love then you don't)
Don't call me, please (you're here, then you're gone)
(It feels just like I know) (let's not do it again)
Keep it real (cause you don't, you're here then you're gone)
Don't call me, please (you're here, then you're gone)
(It feels just like I know) (let's not do it again)

Cause you don't
You're here then you're gone
You cry then you won't
It feels just like I know

Cause you don't
You're here then you're gone
You cry then you won't
