

Garden Path

Ghostpoet

I'm at peace, I've said my peace
I'm on a trip, I'm going east
But don't follow follow follow follow follow me
Don't follow follow follow follow follow me
I've been a clown, I've messed around
I've wised up, I'm getting down
But don't follow follow follow follow follow me
Don't follow follow follow follow follow me

I ain't wise
I'm just a blagger
I just hide
Behind jokes and swagger
Can't you see
That we're skipping down
The garden path

I realised, with open eyes
It's all a game, there's no surprise
But don't follow follow follow follow follow me
Don't follow follow follow follow follow me
I've got to leave this awkward town
There's no one here to keep me sane
But don't follow follow follow follow follow me
Don't follow follow follow follow follow me

I ain't wise
I'm just a blagger
I just hide
Behind jokes and swagger
Can't you see
That we're skipping down
The garden path

I ain't wise
I'm just a blagger
I just hide
Behind jokes and swagger
Can't you see
That we're skipping down
The garden path
