I am here
Standing by the fire
Head to toe just tired
Wonder where you are

I am here
Standing by the fire
Head to toe just tired
Wonder where you are

Take my hand
And take me to a place where I'd rather go
I seldom know know know
I seldom know know know

Take my hand
And take me to a place where I'd rather go
I seldom know know know
I seldom know know know

I am here
Standing by the river
Head to toe just shivers
Wonder where you are

I am here
Standing by the river
Head to toe just shivers
Wonder where you are

Take my hand
And take me to a place where I'd rather go
I seldom know know know
I seldom know know know

Take my hand
And take me to a place where I'd rather go
I seldom know know know
I seldom know know know

I am here
Standing by the window
Maybe I'm just shallow?
Wonder where you are

I am here
Standing by the window
Maybe I'm just shallow?
Wonder where you are

Take my hand
And take me to a place where I'd rather go
I seldom know know know
I seldom know know know

Take my hand
And take me to a place where I'd rather go

I seldom know know know
I seldom know know know
