

## Find a Good Horse

Ghoultown

I heard this as I walked upon on the dusty street  
everybody still spittin in my face  
I scratched it on the back of another piece of leather  
so I could remember what to say

if you give 'em enough fire they'll burn themselves  
if you give 'em enough rope they'll hang  
I remember what the wise man told me  
don't ever be afraid to...

chorus:

find a good horse and ride to the end  
and that's just what the hell I'm gonna do  
take a chance with every breath  
you ain't got nothin else to lose

a man's word is the blade of a knife  
words carry weight it's true  
you can't go wrong when a good thing catches on  
just take it from The News

if you give 'em enough fire they'll burn themselves  
if you give 'em enough rope they'll hang  
I remember what the wise man told me  
don't ever be afraid to...
