

## Killer in Texas

Ghoultown

i'm a cold-blooded killer  
my soul is ripped and torn  
got the black heart of texas  
i've got the devil's horns

cuz i've spent my life to bring you harm  
drank your blood to keep me warm  
moon was full when i was born  
i'm comin home, it won't be long

chorus:  
there's a killer in texas  
a killer in texas  
there's killer on the rails

i'm a hell raisin outlaw  
out here stealin lives  
killed a man for starin  
i cut out his eyes

cuz i started life in evil's hands  
no way in hell i had a chance  
you glorify the deeds i did  
forgot about the soul i had to give

train keeps on rollin  
my life is ever blowin  
like dust across the lone star state  
drink one more drink yeah  
to wash down our sins  
cuz nightfall has come and gone again

i'm a cold-blooded killer  
i'm always on the run  
just look at me mother  
ain't you proud of your son?

cuz i've spent my life to bring you harm  
drank your blood to keep me warm  
moon was full when i was born  
i'm comin for you, it won't be long
