

Chain

(G)I-DLE

You and I
Stare eye to eye, so intertwined
We don't even speak
Silence's so clear, mm

The devil you made me
Is uncontrollable
Patiently creepin' into your body and mind
Need no invite

So, chain me
Like I'm the only air you're breathin'
Your fingertips touch my skin
I don't want you to set me free, mm
Erase me
Until I'm only in your memory
Your pain, my love is so cold
I don't want you to set me free

Hear your voice echoing in my head
Every step I take brings me closer to hell
But it's a game I'm dying to play
If it's a maze I'm finding my way
No escape if you say I'm yours
Whisper my name
I'll answer your call
Won't let you fall, mm

The devil you made me
Is uncontrollable
Patiently creepin' into your body and mind
Need no invite

So, chain me
Like I'm the only air you're breathin'
Your fingertips touch my skin
I don't want you to set me free, mm
Erase me
Until I'm only in your memory
Your pain, my love is so cold
I don't want you to set me free

You're going crazy over me, can't run, run
See me when you fall asleep, can't run, run
I want your chains all over me
I don't want you to set me free
