

Eyes Roll

(G)I-DLE

Hard to handle, best be careful when you work that ass
Better grip my wheel at ten until you 'bout to crash
Keep your eyes on me
Push the start, now go full speed
Lock, lock it down, baby
You're about to fall to your knees

She a work of art
She gon' break your heart
(She gon' break your heart)
She a work of art
She gon' break your heart
(She gon' break your heart)
She gon' fuck you up
But you love that part (Love that part)
She a work of art

And she gon' make your eyes roll
Back, back, back, back...
She gon' and she gon' make your eyes roll
Back, back, back, back...

She gon' make your eyes roll
She gon' make your eyes roll
She gon' make your eyes roll

Make ya eyes roll back to your brain
So good, light you up, no propane
Go ahead, say my name
Glide on it, baby, that hydroplane
La-la-la, in your own melody
Use what you got, put the work on me
All night, no, we ain't gon' sleep
She rock that boat, and she love that speed, go, go

She a work of art
She gon' break your heart
(She gon' break your heart)
She a work of art
She gon' break your heart
(She gon' break your heart)
She gon' fuck you up
(You love that part)
She a work of art

She gon' and she gon' make your eyes roll back
Back, back, back, back...
She gon' and she gon' make your eyes roll back, oh-oh-oh-oh
Back, back, back, back...

She gon' make your eyes roll
She gon' make your eyes roll
She gon' make your eyes roll

Once I get you here
You will never leave
I can take you higher

Nothing you've ever seen
Once I get you close
I can then proceed
Looking up at me boy
A fantasy

Hypnotic
Exotic
He's flying, I'm the pilot
And when you do it like that to me, I can't keep it quiet
No silence
Apply it
That pressure boy, I want it
So light me up that five, oh

'Bout to make your eyes roll
Back, back, back, back...
She gon' and she gon' make your eyes roll back, oh-oh-oh-oh
Back, back, back, back...

She gon' make your eyes roll
She gon' make your eyes roll
She gon' make your eyes roll
