

# Last Forever

(G)I-DLE

Standing alone, my light is bright  
Success around, but is it free?  
Look in the mirror, now I understand  
That is more than what I had  
Fear held me tight, I took a seat  
Yearning deep, I want it back  
My spirit won't break, I'll conquer fear  
Honestly, not ready yet

I want it, stay here, don't sway, seek dreams  
I wanna make my passion last forever  
Stay here, where my hopes play  
With every heartbeat, my resolve is bright yeah  
Turn up, but wait, maybe, you'll be surprised  
Runaway, step back, my future's mine  
Stay here, don't sway, seek dreams  
I wanna make my passion last forever

Ayy, gidarin sal, wanna be high, yeah  
Ilbunilchoga naegen make up, break up, step up, everyday, keep my head up  
Is that true? Really? Don't be silly  
No matter what, nan nareul mideo, yeah, just feelin' my vibe  
I want it, ah, ah, I'll take it away  
My touch, my view, it's all mine  
I want it, ah, ah, I'll take it away  
Shaping a future uniquely mine

I want it, stay here, don't sway, seek dreams  
I wanna make my passion last forever  
Stay here, where my hopes play  
With every heartbeat, my resolve is bright yeah  
Turn up, but wait, maybe, you'll be surprised  
Runaway, step back, my future's mine  
Stay here, don't sway, seek dreams  
I wanna make my passion last forever
