

Silence

Giant Rooks

I'm gonna tame the violence
Put him to sleep some day
Lock him up in a chest
He shall not slip away

Can you hear the sirens?
They'll keep an eye on him
'Cause if he got out
We would go down again

No one in the world
No one knows what to do

No time for the big fights
Silly words only make it worse
But today I will say
No no no

I'm gonna tame the violence
Put him to sleep some day
But before I do
I'll be with you

I wanna break the silence
But it is so beautiful
Guess I'd rather keep things
Like they've been before

No one in the world
No one knows what to do

No time for the big fights
Silly words only make it worse
But today I will say
No no no

Five shots fired at nothing at all
Silly words only make it worse
Today's the day that I will say
No no no

No one in the world
No one knows what to do
No one in the world
No one in the world, do you?

No one in the world
No one knows what to do
No one in the world
No one in the world, do you?

No time for the big fights
Silly words only make it worse
Today's the day that I will say
No no no

Five shots fired at nothing at all

Silly words only make it worse
Today's the day that I will say
No no no

No one in the world
No one knows what to do
No one in the world
No one in the world, do you?

No one in the world
No one knows what to do
No one in the world
No one in the world, do you?
