

## Slow

Giant Rooks

Gonna have a ride on a dolphin's back  
Ocean's foam in my face or it's dust or sand  
The winter is gonna count no more  
Unless we keep on thinking like before  
Get out let freedom ring  
And let us do our most emotional thing

Oh, when dolphins come, when dolphins come  
To take your hope, take your hope  
When dolphins come, when dolphins come  
To take your hope, take your hope

Down the river, boy  
It takes a long ride, but I take it slow  
Down with me, down the river, boy  
It takes a long ride, but I take it slow  
Down with me

We finally arrived at a privileged point  
Yet I don't know where to belong

Oh, when dolphins come, when dolphins come  
To take your hope, take your hope  
When dolphins come, when dolphins come  
To take your hope, take your hope

Down the river, boy  
It takes a long ride, but I take it slow  
Down with me, down the river, boy  
It takes a long ride, but I take it slow  
Down with me

When you feel just like before  
Though your heart falls into nineteen holes  
And it took some years at all  
Lights are going out somewhere  
And you feel just like before  
Though your heart falls into nineteen holes  
And it took some years at all  
Lights are going out somewhere

Gonna have a ride on a dolphin's back  
Ocean's foam in my face or it's dust or sand
