

I'll Wait For You

Giant

You're miles away and I'm feeling lonely
I miss you girl my one and only
Seems like forever since I held you in these arms
Oh yeah

Well, this night is never ending
And girl I ain't about to start pretending
That I've ever felt this way before
No, no

Well, I'm lost without you girl, and you know it's true

That I'll wait for you, keep this love light shining, burning brightly
I'll wait through the night to be with you
I'll wait for you, believe what I'm saying to you, I ain't fooling
I'll wait through the night to be with you
I'll wait for you

Out on the road I'm tired and jaded
This non-stop party's so overrated
But I'm in heaven when I'm playing my guitar

And I'm thinking 'bout you girl, and you know it's true

So I'll wait for you, keep this love light shining, burning brightly
I'll wait through the night to be with you
I'll wait for you, believe what I'm saying to you, I ain't fooling
I'll wait though the night to be with you

I'm lost without you girl...

So I'll wait for you, keep this love light shining, burning brightly
I'll wait through the night to be with you
Oh yeah
I'll wait for you, believe what I'm saying to you, I ain't fooling
I'll wait through the night to be with you
I'll wait for you

I'll wait through the night to be with you
I'll wait for you, believe what I'm saying to you
I'll wait through the night to be with you, I'll wait for you
Love light shining
I'll wait for you
I ain't fooling
Love, love light shining
