

# I Will Believe

Giant

We say goodbye on a night that never ends  
Destiny cries calls you out that door again  
As you go searching for your soul  
Somewhere in the stars  
Remember when the wind blows cold  
I know who you are

When the river runs dry  
I will believe  
When the mountain's too high I will believe  
When your heart's on the line I will believe  
I will believe in your love

So here I am  
I still live inside a memory  
I let you go  
Cause you swore  
That you'd come back for me

Suddenly I turn around  
Shadows fool me again  
Quietly I hear the sounds  
Of all the times I said

When the river runs dry  
I will believe  
When the mountain's too high  
I will believe  
When your heart's on the line  
I will believe  
I will believe in your love  
I will believe in your love

You always told me  
There'd come a time  
When you could hold me  
Forever be mine  
Are you just a dream I'll never find  
Uuuh...

When the river runs dry  
I will believe  
When the mountain's too high  
I will believe  
When your heart's on the line  
I will believe  
Oh, I will believe

When the river runs dry  
Oh, I will believe  
When the mountain's too high  
You know I believe  
I'll always believe  
Oh, forever believe

In your love  
In your love

In your love  
Uuuh... aah... hooou...
