

# It's Not Right

Giant

When I hide in the dark  
From the pale moonlight  
Then the shadows appear  
There's no end in sight  
There is nowhere to hide  
When I'm broken inside  
An emotional fire till my feelings run dry  
There is nowhere to turn  
I'm the one left behind  
I've reached the end of the line

There is no solution  
No easy way out  
This is my revolution  
It's anyway I want  
'Cause I've been a fool

It's not right  
It's not fair  
Can we start it over again?  
It's not right  
Yes, I swear  
On the cross that I bear  
It's not right

Still the shadows appear  
I can't get it right  
I lived my lifetime in fear  
Wanna scream and shout

There is no solution  
No easy way out  
This is my revolution  
It's any way I want  
I've been a fool

It's not right  
It's not fair  
Can we start it over again?  
It's not right  
Yes, I swear  
On the cross that I bear  
It's not right

Feels like I'm lost inside me  
There's no end to these endless turns  
So much time's been wasted  
Trying to find my way back home

Oh, oh, oh  
There's no easy way out  
Oh, oh, oh  
Oh-oooh-oh

It's not right  
It's not fair  
Can we start it over again?

It's not right  
Yes, I swear  
On the cross that I bear

It's not right  
It's not fair  
Can we start it over again?  
It's not right  
Yes, I swear  
On the cross that I bear

I'm old enough to know  
No, no easy way out  
No, it's not right
