

Never Die Young

Giant

Here we stand in a world when lives are going under
We cry for love
I'm trying hard to make it through in a world that makes you wonder
If It's not enough

Someday, somewhere we'll see the price we had to pay

Someone like you can change it all
The truth ain't always there when you call
It's up to you to live or die
But we can never, we will never die young
Never die young

From where we stand, we can't believe this world is falling deeper
We cry for love
I'm trying hard to make it through for this world and just to keep her
We've had enough

Someday, somewhere we'll see the price we had to pay

Someone like you can change it all
The truth ain't always there when you call
It's up to you to live or die
But we will never die young

Someone like you can change it all
The truth ain't always there when you call
It's up to you to live or die
But we can never die young

Someone like you can change it all
The truth ain't always there when you call
It's up to you to live or die
But we can never, we will never die young
Never die young
