

Our Love

Giant

Angel in white, I hate to see you crying
Don't turn away from me
I know I've been a fool and I've made some mistakes
Angel of mine, I can hear through the silence
I know there's not much left to say
There's gotta be a way that we can make it through this pain
Even though it all went wrong, we'll find a way to move on

Our love runs deep
Deeper than the river and stronger than the seas
Our love runs deep
It's deep within my soul I never wanna let it go

Our love
Our love

Girl, you're my life and I don't wanna lose you
So I'll do whatever it takes
Everything we have means the world to me
All we can do is try let me tell you why

Our love runs deep
Deeper than the river and stronger than the seas
Our love runs deep
It's deep within my soul I never wanna let it go

So if you're looking for a reason
I might never let it show
All I know our love...

Our love runs deep
Deeper than the river and stronger than the seas
Our love runs deep
It's deep within my soul I never wanna let it go
...
