

Paradise Found

Giant

There's no chains around my heart
To keep me from you
There's no tears that fall as hard
As the ones I've cried for you

You're like lightning when it strikes
You set my dreams on fire, oh
And like a scorpion that bites
You sting me with desire, ooh

I have looked up
I have looked down
I have looked all around
Our love is paradise found
And I've played the fool
All over town
Our love is paradise found

I'm just a castaway on the ocean
Until you rescued me, oh yes, you did
When I thirst for a little bit of emotion
You give me a drink

Oh, but you give one chance in a lifetime
A second time's a hard way
You might find yourself alone
If you throw that chance away, ooh

I have looked up
I have looked down
I have looked all around
Our love is paradise found
And I've played the fool
All over town, oh baby
Our love is paradise found

You can stand on the edge
With your heart in the clouds
Keep your feet on the ground, baby, oh
But I know what I want
Girl, I've been around

I have looked up
I have looked down
I have looked all around
Our love is paradise found
And I played the fool
All over town
But our love is paradise found
And I played the fool
All over town
Our love is paradise found
Oh, our love is paradise
Oh, our love is paradise... found
