

# Standing Tall

Giant

Oh yeah  
We gotta stand up  
We gotta break it up  
We gotta stand up  
We gotta break it up

Oh  
There's nothing more  
Left here to say  
Where's everybody going now?  
We must control our destiny  
Let's raise our voices high and loud

Testing our will to survive  
Watching the beast in the eyes

Standing tall, we must go on  
Reaching our hearts to the sky  
Waiting for someone to shelter our lives  
Before a brand new dawn, come on

We gotta stand up  
We gotta break it up  
We gotta stand up

Nothing to prove  
Nothing to lose, no  
Why's everybody lying on the ground?  
You won't control our destiny  
We'll raise our voices high and loud

Testing our will to survive  
Watching the beast in the eyes

Standing tall, we must go on  
Reaching our hearts to the sky  
Waiting for someone to shelter our lives  
Before a brand new dawn

Alright  
Oh yeah

Standing tall, we must go on  
Reaching our hearts to the sky  
Waiting for someone to shelter our lives  
Before a brand new dawn

Standing tall, we carry on  
Searching for something up high  
Searching for somewhere to dig up  
Your lies before a brand new dawn

We gotta stand up  
We gotta break it up  
We gotta stand up  
We gotta break it up

We gotta stand up  
We gotta break it up  
We gotta stand up  
We gotta break it up

Before a brand new dawn
