

out of control

Gideon

At the cross in the road
Down on my knees
I'm at the end of my rope
Come set me free

I've been catchin' hell
Rollin' with the devil
Heaven knows
All the pain that I dealt
Out of control
I broke out of the spell
Losing my mind
Searching for myself

No fear, no fences
Out of control
I broke tradition
Out of control
No fear, no fences

Trapped in chains, my whole life
Take me to the other side, oh
Let this fire burn inside my bones
It's hot down here but it feels like home

At the end of the rope
At the cross in the road

No longer between
Barbed wires and free
Crossing the line
'Til the day I die
Take me to
The other side
I jump the fences
Consequences never cross my mind

(When you cross my mind)

Trapped in chains, my whole life
You ain't seen the other side of me
Let this fire burn inside my bones
It's hot down here but it feels like home

Tennessee, Georgia
Mississippi, sweet home Alabama
You're the fire burnin' in my bones
It's hot down here, but it feels like home

(Feels like home)

From the bottom, of the states
I came for blood, you came to play
High stakes, you 'bout to fold
I'm here to stay, bitch
The south's got something to say

Ain't nobody
There and a damn thing
That can stand in my fucking way
Move
