

The Final Nail

Gideon

Again, again I try to forget
The knife in my back, I let you back in
But I won't make that mistake again, not again
Oh, you wanna betray me
Well let me repay you

This is the kiss of death
No second chances
No more mercy, no remorse
So watch me force the final nail
This is the kiss of death, betrayal

Where is your loyalty?
You're just another Judas
Rat, snake in the grass
You're good as dead to me
My fucking enemy

Enemy, dead to me
Oh, you wanna betray me
Well, let me repay you

This is the kiss of death
No second chances
No more mercy, no remorse
So watch me force the final nail
This is the kiss of death, betrayal

All that you've done, you can't undo
Broken promises and cycles of abuse
All that you've done, you can't undo
So now I'm done with you

Again, again I try to forget
The knife in my back, I let you back in
But I won't make that mistake again, never again

I don't know you anymore
I don't owe you anything
I don't know you anymore
You're dead to me
My fucking enemy

You're just another knife inside my back
Snake in the grass
Dead to me
My fucking enemy
