Giggs

So many lonely nights  
So many battles only I could fight  
My doggie got me whether wrong or right  
I pray to God keeps us through the night  
When I step make sure I look left and right  
Anything I do do it with all my might  
Niggas talking sideways like they want to fight  
If it's war then it's war bitch it's on site  
Load Up them choppers like it's December 31st  
Roll up and cock it and hit them niggas where it hurts  
Phone up my partner like how you feel about a purge  
Fill em with copper then we just leave em on the curb  
Stepped in a problem and now I'm getting way worse  
Pussy niggas wanna hear I got hurt  
Fuck them niggas put them on the shirt  
Fuck it take their whole family down to church  
Done wasting time on Nerds  
Seattle got them diamonds on my neck going bizzerk  
Hollow brought them hotties in I was even lost for words  
Gave me that toppy and then I put her on the curb ohh  
For this money I'm a savage man I gotta have it  
Bad habits

Run it up and stash it, grab dem checks and cash em  
Check under my mattress only cash and Hammers  
Check under my name is only licks and boots  
Took that niggas food and made my niggas move it  
My bro the wildest please don't let me introduce em  
Niggas claim they bosses when they just some students  
Woke up this morning and built a blunt  
Thought of all the niggas that I've put on  
All of the shit that a niggas done

Piece of mind for a piece of paper  
Need a sample, need a taster  
He's dumb and stupid, he's a hater
