

Gorgeous

Giggs

Baddies in my car look gorgeous
And we're going my yard, big fortress
She's just gawking, I'm bit cautious
She stopped talking, the bitch nauseas
She's like, take me to your yard, escort me
Naked in my arms, bitch naughty
Mid forties, I'm bit raunchy
She's fine dining, she three coursed me

You gotta bag of man in your circle
I like when the room smells of perfume
Heard you had that ho flying private
I made that stupid bitch fly commercial
Your nigga just got smoked, was it worth it?
These nigga are jokes, Eddie Murphy
Got you down before then we spared you, had mercy
When we, when we, when we
Dats your first anniversary

No, no second thoughts, we gon' get em all
H just smash 'em
Just smash 'em
Whole wrecking ball
Know that bitch a bird and I, gon' make her squawk
Then I gone release this a, whole record launch
You impeccable, too special
And she's clean ain't got no flaws, cute freckles
My heartbeat's pumping fast, yeah, up my guard
Big Rudes, dat's my chargie, yeah, that's my darg

Eat good, get my protein in and my carbs
Smelling good, baccarat
Got my grabba in my ting while I crush a plant
Thought a snake was breathing down my, but it's just a draft
She's hiding, she's in love, but she's on my arm
My brother Tom got Irish blood, dats a lucky charm

Time to show these bitch nigga I'm in charge
And I'm flying rings round em, I'm on Mars

Two sisters, two thickems
That's one cockerel and two chickens
This my new mission, I'm like, who's sipping?
I brr stick em, brr stick 'em

I'm wild nuttin in 'em, I move snickers
They wash, cook for a nigga and do dishes
You cut everything up then you split it
I whip, pimp out my ride like Exhibit

Baddies in my car look gorgeous
And we're going my yard, big fortress
She's just gawking, I'm bit cautious
She stopped talking, the bitch nauseas
She's like, take me to your yard, escort me
Naked in my arms, bitch naughty
Mid forties, I'm bit raunchy

She's fine dining, she three coursed me

Gucci on my dame, she want sushi in the range
She jumped on a plane came back booty weren't da same
She gon' make her name, now her coochie on my brain
She gon' get this dick, that's excruciating pain
