

# Life

Giggs

Another day in the streets to get important pounds  
Undercovers lurking, yeah they're walking round  
They was staking out my little nigga Tiny Boost  
I know they're celebrating cause they caught him now  
The prices in the drought gone up to extortion now  
It's been a hot minute since them niggas brought it down  
And shit's mad slow  
Since morning I've only forked in forty pounds  
I watch these little girls thinking they're important now  
Only fifteen, children thinking 'bout abortions now  
I heard that nigga over there just started snorting now  
Since his nigga died he just couldn't take the torture down  
Niggas start tryna hold their sons and daughters down  
I know niggas robbing  
And they damn near reached their forties now  
This the reason why I can't let my supporters down  
Peckham's on my back, sorta feeling like a tortoise now  
Life  
I know it ain't easy, I know it's real hard  
I know your heart's got fight  
For what you believe in  
Many have fallen, I know it's easier said than done  
Pick yourself up, you're still strong  
Life, that's life  
From the police when niggas got them dead straps in

Bust them red lights tryna get a head smashed in  
On the zed hype, tryna get them zeds cashed in  
This is real life nigga f\*ck a dead rap chief  
My nigga Carlton was rolling and the feds wrapped him  
Shot the tyres out his whip, that was head scratching  
All them niggas tryna do is get them fresh stacks in  
Niggas violate, so we get the best mash Roll round like a tumble weed  
Low key in the trap with a bunch of G's  
Yardman's the connect bringing tonnes of weed  
Niggas that make straps pop like a ganja seed  
I remember running off from some dumb police  
Cut the corner, got it out then I flung the piece  
In the stash house niggas putting guns to sleep  
You run with fat mouths but these niggas run from me  
Life  
I know it ain't easy, I know it's real hard  
I know your heart's got fight  
For what you believe in  
Many have fallen, I know it's easier said than done  
Pick yourself up, you're still strong  
Life, that's life  
I know it's hard  
This life we live  
I know it's hard  
But take the harder option and  
Move up move up yeah  
This life  
This life
