

# Time

Giggs

It's only up from here  
Saw couple greys and touched my beard  
Still out here looking young, just lost some hair  
I been swingin' my sword, a musketeer  
Up early on that morning rush for years

Blueprint building a construction  
The wrong leaders will lead you to destruction  
I never trust 'em  
I sold drugs but I never touched 'em

Sold to customers, then eruption  
Fuck the radio, I blew like a volcano  
Standing next to Kano, I'm posted up with Maino  
All my shooters, they been with man from day doh  
I'm a street nigga

I'm so busy, I just gotta keep my month full  
I gotta level up, gotta get uncomfortable  
But still amongst them, dysfunctional  
Savages on timing, gotta keep punctual

They said I wouldn't make it, "He's a failure"  
I'm still in niggas' faces, on your radar  
I'm big in different places, I'm too cold  
Yeah, they been tryna replace me, it's gettin' old

Time, it's only gotten faster  
I gotta keep it movin', got so much to look after  
I live through the guidance  
Keep diggin', gotta dig for your diamonds  
Time's tickin', listen

Is this the way I go?  
Everyday I think about that  
There's not a day I don't  
These niggas braggin 'bout, what they did first  
I never talk about shit, that's the way I GOAT

I'ma play the game well, get that players' doh  
I just spoke to MO, said he's "layin' low"  
Mum started up the business and she say, "It's slow"  
It'll pick up soon, just stay on the flow

And my soldier never says nuttin', just stands on his own  
He's just like that, he's just playin' his role  
My nigga hit me, he was stressed, think he wanted to talk, that's a minor  
Told him, "Stay on the phone", 'cause I don't mind that

Just keep on movin' cautious, just don't slip up bro, but keep it movin' forward  
Fourth floor and I'm lookin at these quarters  
I'm growing my own flowers and keeping them all watered

The devil's got his pitchfork and he's loud  
You should never look a gift horse in the mouth  
Thinkin' payback is the best sport, I'm so tired

And my patience is a bit short, but I'm alive, listen

I don't like your reasons, she don't like to reason  
She thinks 'cause man don't cry, that man ain't got no feelings  
She's showing she loves him, he doesn't believe her  
He's showing he loves her, she doesn't believe him

Bad communication killin' off the evening  
This isn't the way man really wants to leave things  
I'll just come back afterwards  
I'm just flabbergasted

It don't matter who's the closest, or who's the furthest  
You gotta trust the process  
It's educational, and we won't stop until the wealth's generational

Man ran up and took a swing and hit a baseball  
You can hate on the ting but that's disgraceful  
I'm a ninja, and she's April  
I'm just playin' with them, I'm just playful, yo listen
