

## Normalcy

Gigi Perez

I don't know why I forgive you  
I just know that I do  
And I guess it's been nice  
Hearing from you  
You say I should visit  
Your place in Austin  
You know that I'd love to  
And we shouldn't be taking this often

And normalcy's boring  
I am over with that  
But one out of twenty  
Isn't so bad  
So bad

Do you ever go back  
To my place in Boston?  
Suspend enough time after all  
I was everything you wanted  
I'll answer your questions  
But you'll answer mine  
Like your father, you could just call  
And everything would be fine

And normalcy's boring  
I am over with that  
And one out of twenty  
Isn't so bad  
So bad

And I need you now  
Here in my lap  
I'm gonna freak out  
Someone's getting stabbed

Do you have any clue?  
Why I am a siren to you  
You have any clue?  
Is that so bad?  
So bad?
