

# This Is My Prayer

Gigliola Cinquetti

This is my pray'r, my only pray'r  
When the night comes and all is still  
Here, on my pillow, this is my pray'r  
That he will care, really will care  
When I need him, he will be there  
My life to share

Oh, let him love me  
When we kiss let a fire start  
And let him want me  
The way that I want him with all my heart

This is my pray'r, my silent pray'r  
All I wish for on ev'ry star  
May his arms be never too far  
When I awake, may the day bring  
For my finger his ring to wear  
This is my pray'r, my pray'r

Oh, let him love me  
When we kiss let a fire start  
And let him want me  
The way that I want him with all my heart

This is my pray'r, my silent pray'r  
All I wish for on ev'ry star  
May his arms be never too far  
When I awake, may the day bring  
For my finger his ring to wear  
This is my pray'r, my pray'r
