

Heres Why

Gilbert O'Sullivan

Here's why I love you
Here's why I'll never let you go
Here's why someday you'll be
On an Island with me
Where the Mediterranean flows

Here's why I'll always
Always in any way I can
Do my best to ensure
Our love is secure
Right here in the palm of my hand

Here's why whenever
Here's why whenever skies are grey
Here's why you dropping in
Soaked to the skin
Is like sunshine on a rainy day

Here's why I'll never
Never as long as I shall live
Do on purpose to you
Something I know in truth
I would find it hard to forgive

I want to hear you
Want to be near you
Hug you all night long
I want to cruise you
Sweet lollapalooze you
Till we can't go on

Here's why I love you
Here's why I'll never let you go
And while some it is true
Break up in two
Our love will just grow and grow

Here's why rivers run deep
Mountains are steep
Nature just made them so

Here's why I'll always
No matter where no matter when
Be your rock if need be
Anchor at sea
Lover and of course a friend
Lover and of course
A friend
