

# I Wanna Know

Gilbert O'Sullivan

Never seen a woman that could pull on a dress  
That looked like she was wearing nothing at all  
Enough to make the eyes that's in the back of your head  
Wish that they had not been facing the wall

Doesn't it concern you what it's doing to me  
Haven't you a heart in your soul  
I don't want your sympathy if that's what you think  
I wanna know

Said that on the weekend if it's okay with me  
You'd like to visit one or two of your friends  
There's this big reunion happens every year  
The only thing is that they don't allow men

Do you take me for a fool is that what you think  
Is this your idea of a joke  
Don't know what your up to but whatever it is  
I wanna know

It was never like this when we started out  
Wasn't such things as pain  
If my memory serves me well  
Is it a game  
Is it a game girl

Saying it and doing it are two different things  
One is not as bad I suppose  
Either way your gonna have to face it my dear  
I wanna know

Never love another one that you can depend  
To me you're everything my heart's desired  
Why then are you going round with such a long face  
It's not as if it's something that is required

Doesn't it concern you what you're doing to me  
How could you be sinking so low  
I don't want your sympathy if that's what you think  
I wanna know

Never seen a woman that could pull on a dress  
That looked like she was wearing nothing at all  
Enough to make the eyes that's in the back of your head  
Wish that they had not been facing the wall

Do you take me for a fool is that what you think  
Is this your idea of a joke  
Don't know what you're up to but whatever it is  
I wanna know...
