Down to Mexico

Paul Gilbert

If my situation gets out of control I could run down to Mexico If I need a place to do some layin' low I could run down to Mexico

Sun is always in the sky Bands are always hoppin' You can shake it all you want Never feel like stoppin' Think I'll give my mind a rest and save my soul I will run down to Mexico

If you don't have anywhere left to go You could run down to Mexico If you found the answer but still you don't know You could run down to Mexico

You don't need to buy your friends They're just glad to meet ya Maybe even meet yourself A friendly senorita If you never try it you will never know You could run down to Mexico

Take me a vacation from the freezing cold Gonna run down to Mexico Should have left a long, long time ago Gonna run down to Mexico

Sun is always in the sky Bands are always hoppin' You can shake it all you want Never feel like stoppin' If you never try it you will never know You could run down to Mexico
