

# Enemies

Paul Gilbert

Couldn't sleep through the heat  
Felt the daylight through the sheets  
Plus I need to get up  
Catch my enemies and put them all in jail

On the way through the day  
Birds are singing, children play  
But I need to watch out  
Catch my enemies and put them all in jail

And not a moment too soon  
He got to stop what he doing  
I mean this writing is wrong  
He won't be doing that for long

In jail, in jail  
In jail, in jail

In the evening stars are bright  
Peaceful feeling through the night  
But I need to look out  
Catch my enemies and put them all in jail

You know some people  
They think they know what happened really is  
But I know what happened that really is  
Happened just two things  
The first thing,  
Is when you get to ride in a racing car  
The second thing,  
Is when your bad, bad, bad, bad enemies  
Are in jail  
That's right  
When you are riding into a racing car  
Is when your bad, bad, bad enemies  
Are in jail  
So when I'm walking down the street  
And I see an enemy  
Where do I put him?  
(In Jail)  
That's right  
When I'm walking down the street  
And I see another enemy  
Where do I put him?  
(In Jail)  
I see one more enemy, where do I put him?  
(In Jail)  
Feeling so happy  
With my enemies  
All in jail  
(Put 'em all in jail) (x25)
