## **Midnight Maryanne**

Paul Gilbert

I hear the blue jay hummin' Down the end of my street He's got the words all wrong But the right melody He must be happy 'Cause I never heard him sing before

Woulda missed it again From the start 'til the end If it weren't for my midnignt Maryanne You know her friend's in love

I'm askin' all you people Won't you lend me a smile I walked for sixteen hours Only seemed like a mile I must be happy 'Cause I never saw the sun before

Woulda missed it again From the start 'til the end If it weren't for my midnight Maryanne You know her friend's in love

You might be wonderin' I wouldn't blame ya You think you've got somethin' That's gonna tame her Don't even try I've got the key Her best friend is me So come on and phase it like a Bad Stone

Woulda missed it again From the start 'til the end If it weren't for my midnight Maryanne You know her friend's in love
