

The Ballad of the Last Lions

Paul Gilbert

Long before our mothers bore us
Mighty lion roamed the forest
When they left, we sure were sorry
Don't be sad, you don't gotta worry

'Cause the last lions never give up
The last lions
Oh, the last lions never will stop
The last lions

You don't gotta be no monkey's uncle
To see you're still in the same old jungle
Same old city, same old pavement
And the cats are coming back to claim it

Cause the last lions never give up
The last lions
Oh, the last lions never will stop
The last lions

Yeah, the last lions never give up
The last lions
Oh, the last lions always will rock
The last lions

The last lions never give up
The last lions
Yeah, the last lions never will stop
The last lions

The last lions never give up
The last lions
Yeah, the last lions always will rock
The last lions
