

Sorry I Can't Write A Song About You

Gilby Clarke

I was listening to our records
but I never played our song
the underground sang "sunday morning"
lou reed was never wrong

I wanna write you something
sing it from my heart
stole the words from a hallmark card
I never used, but they're so true

sorry I can't write a song about you
sorry I can't write a song about you

I was watching some old movie
it really wasn't that good
it wasn't "inside daisy clover"
there was no nathalie wood

I wanna tell you something
say it from my soul
the words got stuck in my throat
nothing came out, but I mean it loud

sorry I can't write a song about you
sorry I can't write a song about you
