

I'm Ready

Gin Blossoms

Hey tired of spinning my wheels
Wanna know just how it feels tonight

Walk down the road to the same old scene
Does it make you wanna finally come clean?
You might find
It's gonna be alright

Cuz I'm Ready I'm so ready
To get right out of here
Gonna make it disappear
I'm ready - I'm ready

Ready I'm so ready
Yeah when everything goes wrong
Don't you wanna come along
Are you ready? Are you ready?
