

## What

Gin Blossoms

What  
And give somebody all of my time  
That word, we'd never really cross that line  
My fault, I wonder why you never heard  
It's my fault, probably I never should  
All the time I've known you  
And maybe I shoulda told you what  
All the time I've known you  
And maybe I shoulda told you what  
What  
And give somebody all my time  
That thought it never really crossed my mind  
My fault  
I wonder if you're counting sheep  
Yet if at all  
Probably you're asleep  
All the time I've known you  
And maybe I should have told you what  
All the time I've known you  
And maybe I should have told you what  
All the time I've known you  
And maybe I should have told you what  
What  
And give somebody all of my time  
That thought it never really crossed my mind  
My fault  
I wonder why you're never hurt  
And if at all  
Probably I never should have  
And all the time I've known you  
Maybe I should have told you  
What...
