

Wonder

Gin Blossoms

When you're young and beautiful
The world is open wide
Your pocket's empty, dreams are big
Another endless night
How could we know years ago
That time would go so fast
Our plans are more like fairytales
They're never meant to last

It calls to me
It won't let me sleep

I wonder where you are
I wonder where you are
I wonder why
I wonder where you are

I've had my troubles, big and small
The winters roll on by
The magic days so long ago
Never cross my mind
Out of the blue I hear the strains
Of some old mournful song
I feel your presence on the breeze
And then it's all but gone

It calls to me
It won't let me sleep

I wonder where you are
I wonder where you are
I wonder why
I wonder where you are

I wonder if you're safe and warm and happy
I wonder if you think of me at all

I wonder where you are
I wonder where you are
I wonder why
I wonder where you are

I wonder where you are
I wonder where you are
I wonder why
I wonder where you are
