Don't

Gin Wigmore

We said forever
So I believed that
When I gave you my heartstrings
But you gave them back
The moment you broke down
I yearned for you to be strong
For the rest of us fall
When you let go of all faith
We're blinded

Don't, don't, don't you leave me
I can't stand it here all alone
And I'm finding it hard
With you gone

Gone like a potion
From evil in your veins
Can you please try and fly like the angels
And live once again
But I will not wait for another day
Come back now
Come back now

Oh, but don't, don't, don't you leave me
I can't stand it here all alone
And I'm finding it hard
So don't, don't, don't you hurt me
By moving on to gone
By losing all

I am finding this hard to breathe
On my own
All your photos and memories
Don't make this home sweet home
On my own
I can do this
But you're making it harder
You're making this harder

So don't, don't, don't you leave me
Oh, I can't stand it
And I can't stand it here
And I'm finding this hard
So don't, don't, don't you hurt me
By moving on to gone
By losing all
And don't, don't, don't you leave me
I can't stand it here all alone
And I'm finding it hard
With you gone
