

# Hard Luck

Gin Wigmore

Old love, won't you wait for me?  
I gave you everything that a man should need  
How can I pick you up if you keep on letting me down?  
Feel these wounds with the tears that I'm cry, cry, cry, cry, crying for you

Hard luck, should've known better than to make it worse  
Should've known better, had to give it all up  
Hard luck

Wild love, were you all I need?  
If we did this over, would it change who I have to be?  
Tell me how to let you go without me letting you down  
Feel these wounds with the tears that I'm cry, cry, cry, cry, crying for you

Hard luck, should've known better than to make it worse  
Should've known better, had to give it all up  
Hard luck

[?] with all we did, all we did, all we did right  
Was nothing, no not enough to make it right  
Just enough to break it  
Not enough to make it

Hard luck, should've known better than to make it worse  
Should've known better, had to give it all up  
Hard luck, should've known better than to make it worse  
Should've known better, had to give it all up  
Hard luck  
Hard luck
