

Circumstances

Ginger Root

Something's arouse
Let's reach out again
But how could I lose
What I knew, so well for my whole life?

Time to go inside
Lock those doors and hide
The circumstances
I can't do this alone, alone

I'm looking for you
Put my mind at ease
How can I choose
What will stay and what leaves?

Tell me I could
Remember the things
And if I don't snooze
On what I knew so well for my whole life

Time to go inside
Lock those doors and hide
The circumstances
I can't do this alone

Please remember, please be honest
Please remember, please be honest
Please remember, please be honest
Please remember, please be honest
Please remember, please be honest
Please remember, please be honest
Please remember, please be honest
Please remember, please be honest
(Ha ah, please be honest)
(Ha ah, please be honest)
