

Giddy Up

Ginger Root

Two in the mornin'
Well, will it ever get chiller?
I'm sittin', waitin' like a fool
How'd you do that?

Got me, get me
All feels the same
When I fell in, I fell in

You never showed me
When does it ever get better?
And now I'm runnin' from the truth
Nice and coolish

Got me, get me
All feels the same
When I fell in, I fell in with you

When will you love me?
When will you care?
I count the days and the nights
Finally fallin'
Too shy to bare
I count the days and the

Night's be falling fast
Night's be falling fast, oh baby
Night's be falling fast
You best to giddy up

Been countin' slowly
It's kinda hard to play catch up
'Cause every morning's night is noon
Catch me snoozin'

Got me, get me
All feels the same
When I fell in, I fell in with you

When will you love me?
When will you care?
I count the days and the nights
Finally fallin'
Too shy to bare

Finally fallin'
Fallin'
Fallin' down
