

## Lil Window

Ginger Root

I see smiles through my little window  
But in time it'll fade away  
I know it's just temporary  
Will I ever rue the day?

Tell me why you look so sorry  
Tell me why you'll fade away  
Can I reach some importance?  
Will I ever rule the day?

What if I left you? You had to know  
I'd just be left my own li'l window

Have you seen my latest screening?  
The light's still on when I hit play  
Can you replicate my walking?  
Will I ever see today?

What if I left you? You had to know  
I'd just be left my own li'l window
