

Multiply

Ginger Root

So you multiply the times I've tried to run and meet you
Show and tell your mind from mine where I can't seem to see you

How can one say that they'll be so bold?
Everyone's around when the story's told
How can one say that they'll be so bold?
I know you tried sometimes

How's it now you multiply the times I thought I knew you?
Now I know too much, I died right when I saw right through you

How can one say that they'll be so bold?
Everyone's around when the story's told
How can one say that they'll be so bold?
Everyone's around, say it loud

(Kick it)
