

Red

Ginger Root

I know I shouldn't stay
But it's like in the way you talk
And I know it's time for us
But I'm running the same old block

I wish it was true
Stayin' outside is fine
And I could help you
But I've got red inside

Am I doin' the right thing?
All thoughts that live in my head
And I know the nights we go
Who's trying to get our head?

I wish it was true
Stayin' outside is fine
And I could help you
But I've got red inside

I wish it was true
Stayin' outside is fine
And I could help you
But I've...

I wish I could help you
Stayin' outside is fine
And I could help you
But I've got red inside
