

There Was A Time

Ginger Root

There was a time when I needn't have to always worry
There was a time to tell every little thing I notice about you
When I know not when I'm gonna be there
To tell you it'll take some time
But I'll spend with you

Oh, there was a time I've been mixing up my definitions
I'm hittin' the stride when I only think of what I'm thinkin' now, one or two
When I know not when I'm gonna be there
To tell you it'll break sometimes
But I'll stand with you

There was a time when I needn't have to always hurry (Thank you
)
You say it's alright, tell me every little thing you notice about me
When I know not when I'm gonna be there
